

CHERRYVALE IS NEW OIL FIELD

Location Near Las Vegas to be Prospected; Indications Are Good.

Las Vegas, N. M., Oct. 21.—The oil excitement, which is spreading so rapidly in all sections of New Mexico, has finally hit the section to the west of Las Vegas known as the Cherryvale field. It has been known for some time that well defined structures exist here and several well known geologists have visited the field and made favorable reports.

The geology of the Cherryvale district is said to be an almost duplicate of the Burkhurst district. The strata are very prominent and the axis has a northward by southward strike, extending some 15 miles or more. It is reported that some gas and oil have been found in small quantities in some of the deep water wells. In Cherryvale, some six miles to the east, messages of oil are plentiful. Every day some new gas wells are being drilled and several of them are being producing their way over this section and several of the big companies are reported to have had their geologists in this field.

It is rumored around Las Vegas that a company is to be formed soon to begin drilling in the Cherryvale field. The land has been leased and reports are heard of quiet accumulation of money and it is expected that within a few days some companies will be actively at work in this field.

The field is only about 25 miles from Tucuman.

GAS AND OIL ARE FOUND IN WELL AT CATSVILLE

Catsville, Texas, Oct. 21.—Showing of much gas and some oil has been found in the Big Bend Oil Company's No. 1 well on the C. A. Burkhurst property at a depth of 1000 feet. Drilling is being continued.

MAIN DELAYS DRILLING

San Antonio, Texas, Oct. 21.—Owing to the many recent heavy rains in this district operators are unable to make much progress in drilling wells. The road between the Burnet field and San Antonio is impassable and it is impossible to transport materials to the locations.

"Casacerta" work while you sleep! When you are feeling bloated, head-achy, constipated, if the breath is bad, stomach upset, or for colds, influenza, "Casacerta" to regulate the liver and bowels and all is well by morning.

"Casacerta" never grips, sticks or keeps you awake at night. It is a safe, pleasant, and effective laxative for grown-ups and children. Switch to "Casacerta"—Cost, 30 cents—Adv.

WE KNOW that Southwestern Tularosa Basin Oil and Refining company stock is backed by every safeguard possible in the oil business: Sound business men, economical management, the best outfit procurable, and an oil driller WHO KNOWS HIS BUSINESS.

Within a very few days, this stock at par, \$1.00, will be TAKEN OFF THE MARKET. The exact date of closing at this price will positively be announced within twenty-four hours of this publication.

Plenty Of Gas Near Amarillo; Oil Looked For

Excitement Is Increasing as the Wells Pass the 3000 Foot Mark.

Amarillo, Texas, Oct. 21.—Interest in oil developments in the vicinity of Amarillo is intense. With a number of large gas wells in the district and some showings of oil, operations in this territory continue active. Many wells are drilling below the 2000 foot level.

The Tripp No. 1 of the Haines concern is drilling at a depth of 2900 feet, with a good showing of oil. It is reported that the Haines concern's Matron No. 1 has reached the sand at 2800 feet. However, this rumor has not been confirmed.

The Matron No. 1 of the Haines concern is drilling close to 1200 feet. The Haines No. 1 of the Amarillo Oil company is drilling at 1700 feet. A showing of oil has been found at 1800 feet in the Haines No. 1 and the company's No. 2 on the Randall Sealer line.

The Philo Duro Oil company's No. 1 Arroyo, Randall county, is drilling at a depth of 1750 feet. Five miles northeast of Amarillo the Severn Oil company's No. 1 Holbrook is drilling at 300 feet. This concern is preparing to install a surface rig and will make good progress on their task when this is accomplished.

The Oklahoma State Development company's No. 1 Purine has been drilled in and is drilling at 300 feet. The Miller Oil and Refining company is drilling its test with a rotary and is at a depth of 1000 feet.

The Heford Oil and Gas company's No. 1 in Deaf Smith county is making rapid headway. Several new wells are being drilled in this district. The No. 1 well of the Capital Petroleum company is drilling at 250 feet. Lenix and Barker's No. 1 Landberg is drilling at 1800 feet.

Bradford and Treas. Shalton No. 1 is drilling at 900 feet.

INCREASE CAPITAL STOCK

Amarillo, Texas, Oct. 21.—The Rio Grande Oil company of El Paso has filed an amendment to its charter in the state department increasing its capital from \$200,000 to \$750,000.

EMPLOYMENT OFFICER NAMED

Washington, D. C., Oct. 21.—Clifford Beckham, of Fort Worth, has been selected by senators Shepard and Chapman as state labor employment officer under the new federal prohibition law. The position pays \$4000 annually. Beckham is an employee of the Department of Justice.

BIG GASSEIN IN ELYSIAN FIELD

Much Activity, Wildcat and Otherwise, in Vicinity of Shreveport.

Shreveport, La., Oct. 21.—The Hope Oil company has brought in a 17,500,000 cubic foot gas well on the Louis Werner lease, six miles southeast of the Elysian fields. The company has made a second location on the property.

The Louis Werner company has completed its No. 1 Taylor Trower, situated near Bethany, on the Louisiana side of the state line. This well is a large gas well, but no estimate of production has yet been made.

West of the Homer field the Illinois Oil Refining company has acquired sections of land. Drilling will be started at an early date on a test well on the property.

The wildcat territory in the vicinity of Elysian, La., will be thoroughly tested in the near future. Several test wells are to be drilled in this vicinity of Union parish. In the northern portion of the parish, 2800 acres were recently sold for \$15 per acre.

A serious condition now exists in the Elysian fields, owing to the embargo there. Operators which are financially able to construct their own pipelines find it impossible to get the necessary rails into the city.

Roswell Oil Company Pays Dividend From Sales

Hogwell, N. M., Oct. 21.—Sunderland of the Roswell Oil Development company are richer today by \$47,000, the result of the first dividend check which has just been received from the company. This first dividend represents 10 percent of the capital stock of the company, \$110,000, and is the result of the first payment made to the home company for the transfer of \$100,000 to the National Exploration company of New York City.

Under this deal the local company makes its next payment to the local company another 50 percent dividend will be made to the stockholders. Just when this will be has not been definitely stated.

Under this deal the local company makes its next payment to the local company another 50 percent dividend will be made to the stockholders. Just when this will be has not been definitely stated.
